

M. TECH. BULLETIN

2023 – 2024

**AEROSPACE ENGINEERING
DEPARTMENT**

IIT BOMBAY

(Created 24th July, 2023)

COURSE CURRICULUM

The two-year M. Tech. programme in Aerospace Engineering has the following four specializations:

1. Aerodynamics (AE 1)
2. Dynamics & Control (AE 2)
3. Aerospace Propulsion (AE 3)
4. Aerospace Structures (AE 4)

The course curriculum for the first two semesters of M. Tech. programme is specific to each specialization, the details of which are given in the following pages. The third and fourth semesters are common to all specializations.

The core courses prescribed for the AE 1, AE 2, AE 3 and AE 4 specializations are listed in the Tables I(1)-(4), respectively.

Students have to take several elective courses as specified in Table I (viz. 6 for AE1, AE2 and AE3, but 4 for AE4), subject to the following rules (with none of the electives being repeated). The set of courses available for this appear in the separate ‘AE Electives’ document.

- Students may take all the requisite electives from the set of their specialization-specific options.
- However, students may choose to fulfil up to two of these elective requirements from the courses listed under any other M. Tech. specialization of the Aerospace Department (core or elective).
 - As a further flexibility, one of the two electives mentioned in the previous point can be chosen from any other course within the Institute in consultation with the Faculty Adviser.

All elective courses must be at least at the 400-level.

Apart from the above electives, students have to choose one “Institute elective” from the list provided by the institute at the beginning of the semester.

Moreover, students have to take a “Communication Skills” course that inculcates comprehension and articulation of technical material, and instils ethical practices in academia. A further compulsory “Seminar” course offers students the opportunity to practice these skills by undertaking a survey of a relevant topic under the guidance of a faculty member of the department. The seminar involves preparing a report and a presentation on the chosen topic.

The available elective courses as well as the contents of the departmental courses appear in separate documents.

Overview of Number of Courses and Credit Structure

Specializations: Aerodynamics (AE 1), Dynamics and Control (AE 2), Aerospace Propulsion (AE 3), Aerospace Structures (AE 4)

| Item | Number of Courses in Semesters | | | | Total Credits |
|---------------------------|--------------------------------|-------------------------------|--------------------------------------|--------------------------|------------------------------|
| | I | II | III | IV | |
| Core Courses | 3 (AE1, AE2, AE3), 4 (AE4) | 1 (AE1, AE2, AE3), 2 (AE4) | – | – | 24 (AE1, AE2, AE3), 36 (AE4) |
| Dept Electives | 1 (AE1, AE2, AE3), 0 (AE4) | 2 (AE1, AE2, AE3), 1 (AE4) | 2 | 1 | 36 (AE1, AE2, AE3), 24 (AE4) |
| Institute Elective | – | 1 | – | – | 6 |
| Lab. Course | 1 | – | – | – | 4 |
| Seminar | – | 1 | – | – | 4 |
| Communication | – | (+ 1) | – | – | (+ 6) ⁺ |
| Total | 5 | 5 (+ 1) | 2 | 1 | 74 (+ 6) |
| M. Tech. Project | – | – | Stage I [§] (42 credits) | Stage II (42 credits) | 84 |
| Total Credits | 28 | 28 (+ 6) | 54 | 48 | 158 (+ 6) |

⁺P/NP course; credits only for load purposes

[§]Students must register for Stage I of M. Tech. project in second semester (January)
